

# 3DXplorer® Online Meeting

3DXplorer Online Meeting: much more than just another remote conferencing or training tool.

## Engaging, Immersive, Effective: The Future of Virtual Meeting & Training Solutions is Here

3DXplorer Online Meeting allows you to host meetings and training sessions within a fully customizable 3D virtual space, providing an engaging and thus highly effective meeting and training solution. Hosts can easily build any venue type (i.e. conference room, training room, even replicate actual corporate facilities or equipment and products). Participants are immersed within a space represented by avatars, offering the most personal meeting and training solution available.

## The First and Only 3D Online Application of Its Kind: No Plug-Ins, No Software to Install

3DXplorer is the *only* immersive and interactive 3D Online platform that can be used without software downloads or plug-ins; allowing businesses to create customized interactive 3D Online meeting and training spaces in which all involved participate with the use of avatars, view and handle 3D objects and products, and engage with live moderators as effortlessly as they now surf the Web. Finally, a practical 3D solution that everyone can access and leverage without system or IT constraints.

With no prior experience, custom 3D spaces can be created in just minutes using 3DXplorer.

### Practical Corporate Applications

- Corporate E-Training
- Virtual Classrooms & eLearning
- Collaborative Meetings
- HR OnBoarding
- Sales Presentations
- Product Development Meetings
