

3DXplorer® for Human Resources

Provide Your Organization With Virtual Communication Solutions That Preserve A Personal Experience

It's a fact that virtual communication solutions have a place in today's business world. Up to this point most solutions have not addressed the human or personal factor. As an HR professional, you know that the ongoing quality of an employee's experience is crucial to the success of any business. 3DXplorer provides a host of corporate HR solutions that preserve live personal experiences. These personal experiences promote positive morale and team loyalty, while also greatly increasing task efficiency.

Personal Experiences Are Positive, But How Practical And Simple Is Implementation

3DXplorer is the *first* and *only* immersive and interactive 3D Online platform that can be used without software downloads or plug-ins. Your team can completely customize virtual environments that are accessible to anyone with just an Internet connection—firewall and strict corporate IT policies are not an issue. Because installations are not required, implementation is as easy as it gets. Practical HR uses include: offsite HR OnBoarding, virtual training, eLearning, Online meetings, remote conferences and much more. With no prior experience, you can easily customize 3D applications and be up and running within a day.

Powerful Features

- Real-time immersive interaction
- Simultaneous multi-desktop & multi-application sharing (*multiple trainers & trainees share desktops & applications at the same time for true collaboration and heightened efficiency*)
- Customizable interactive avatars
- Functional laser pointers
- Integrated instant messaging & VOIP
- Enlarged presentation pop-up views
- Meeting scheduler & history log
- Instant access with any computer
- Web-based control & access or enterprise installation for maximum security

Seeing Is Truly Believing

There is no better way to research or understand what we're offering than to meet in one of our actual 3D spaces Online. Contact us now to set up a 15-minute experience!

Examples of Practical Human Resources Applications in 3D:

Standardize HR functions across remote locations, reduce travel costs, reach more people without inundating resources and allow remote team-members to feel connected.

▶ Offsite OnBoarding

- Replicate your company headquarters or other desired location to personally (in live real-time) welcome new-hires. Your virtual environment can include video and other presentations that provide information about company history, policies, benefits, etc.

▶ Corporate eLearning & Virtual Training

- Educate and train employees all over the world from a single location. The immersive experience provides realism and the central delivery ensures consistency.
- Replicate retail locations for virtual customer service, procedures and sales training.
- Create classrooms for soft skills, software, computer training and more.
- Replicate specialized facilities for virtual simulations and technical training (build much more than just a room; replicate equipment, machinery, vehicles, computers, etc.)

▶ Online Meetings & Conferences

- Create virtual meeting rooms that allow for remote team-members to conduct any kind of collaborative meeting. Facilitate more engaging and personal remote conferencing.

▶ Virtual Watercooler Environments

- Create interesting and enjoyable 3D spaces for employees to socialize and share ideas.

▶ Benefits Enrollment, Performance Reviews & More

- Reach remote employees for benefits enrollment, performance reviews and all other miscellaneous HR functions while maintaining a personal and interactive experience.

- Enterprise Friendly, No Open Port Required
- No Plug-In Required, No Software to Install
- Browser-Based, No Firewall Issues
- SaaS (Altadyn hosts) or Enterprise (Intranet)
- Runs on any Computer (Win/Mac/Linux)
- Browser Friendly (IE, Firefox, etc)

- Easy-to-Use Authoring Studio
- Avatar Configurator, Create Personal Looks
- Web-Native Open Modeling Environment
- Open API (Javascript/PHP/HTML)
- Secure: Your Data is Converted to Proprietary Formats & Can be Password Protected
