

3DXplorer® for Online eLearning

A New Kind of Virtual Classroom: Easily Create Any 3D Training and Education Environment

3DXplorer offers the *first and only* immersive 3D Online virtual classroom tool for synchronous instructor-led training and education that can be used without software downloads or plug-ins. Instructors can completely customize easily-accessible virtual environments to most effectively conduct any type of training session; from a standard corporate classroom designed to provide soft skills or software training, to a highly-realistic manufacturing facility used to educate techs about critical operations and repair procedures. With 3DXplorer you can create credible life-like virtual environments and training facilities that anyone can access with just an Internet connection—no more system, IT or firewall issues.

Reach, Engage, Collaborate, Accomplish: eLearning With 3DXplorer Offers Many Benefits

Standardize training across remote locations, reduce travel costs, eliminate land-based facility costs, train more people without inundating resources and allow remote team-members to feel connected—the benefits go on. 3DXplorer should be a component of every Learning Management System (LMS), as 3D immersive interaction and collaboration facilitates the highest levels of interest, attention, participation and accomplishment. 3DXplorer does this with ease-of-use, infinite scalability and without a need for plug-ins.

Powerful Features

- Real-time immersive interaction
- Simultaneous multi-desktop & multi-application sharing (*multiple trainers & trainees share desktops & applications at the same time for true collaboration and heightened efficiency*)
- Customizable interactive avatars
- Functional laser pointers
- Integrated instant messaging & VOIP
- Enlarged presentation pop-up views
- Meeting scheduler & history log
- Instant access with any computer
- Web-based control & access or enterprise installation for maximum security

Seeing Is Truly Believing

There is no better way to research or understand what we're offering than to meet in one of our actual 3D spaces Online. Contact us now to set up a 15-minute experience!

Examples of Practical eLearning Applications in 3D:

- ▶ **Replicate Specialized Facilities for Virtual Simulations and Technical Training**
 - Train technicians how to build, repair and operate software, computers, medical equipment, manufacturing equipment, heavy machinery, specialty vehicles, etc. Remember that you are able to replicate much more than just a room!
- ▶ **Replicate Retail Locations for Virtual Customer Service, Procedures and Sales Training**
 - Train employees all over the world from a single location. The immersive experience provides realism and the central delivery ensures consistency. A variety of real-world scenarios can be reenacted within virtual environments that mirror real-world locations.
- ▶ **Create an Entertaining and Interesting LMS Portal**
 - Imagine a virtual space that employees can visit to learn about all the components of your LMS, and to directly access those components from a centralized location.
- ▶ **Create Virtual Classrooms for All Levels of Online Courses and Workshops**
 - Build classrooms in which professors can engage and deliver materials to students remotely; or where students meet with each other to study and conduct open discussions when land-based locations are unavailable.

- Enterprise Friendly, No Open Port Required
- No Plug-In Required, No Software to Install
- Browser-Based, No Firewall Issues
- SaaS (Altadyn hosts) or Enterprise (Intranet)
- Runs on any Computer (Win/Mac/Linux)
- Browser Friendly (IE, Firefox, etc)
- Easy-to-Use Authoring Studio
- Avatar Configurator, Create Personal Looks
- Web-Native Open Modeling Environment
- Open API (Javascript/PHP/HTML)
- Secure: Your Data is Converted to Proprietary Formats & Can be Password Protected
