

3DXplorer® Virtual Conferencing

Powerful And Engaging: Immersive Online 3D Offers More Than 2D Applications

3DXplorer Virtual Conferencing offers you a way of creating the feel and life-like personal experience of an actual conference at only a fraction of the cost. Virtual conferences can be organized and launched instantly thanks to 3DXplorer's browser-based technology. Anyone with just an Internet connection can be invited, enter represented as an avatar and participate. 3DXplorer environments are fully customizable allowing hosts to craft and provide the most engaging experience possible.

A First: Browser-Based 3D Conferences Supporting More Participants Than Ever Possible

3DXplorer is the only immersive and interactive 3D Online platform that can be used without software downloads or plug-ins; allowing businesses to create customized interactive 3D virtual conferencing spaces in which very large numbers* may participate with the use of avatars, view and handle 3D objects and products, and engage with live moderators as effortlessly as they now surf the Web. Finally, a practical 3D solution that everyone can access and leverage without system or IT constraints. With no prior experience, custom 3D spaces can be created in just minutes using 3DXplorer.
